ATTACHMENT TO NOTICE OF ALLOWABILITY, PAPER #4

1. The following is an examiner's statement of reasons for allowance:

The Examiner has carefully considered each of the 3 independent claims 1, 3, 13, as amended in the 1 June 2004 response, and finds the accompanying remarks to be persuasive, as to the prior art rejections previously made of record.

During an update search, the Examiner noted US #⁷³⁴~~6,374~~,880 B2 to Chang et al., RB
in which a medical imagery display system provides a patient canvas view in which plural studies may be viewed. However, Chang et al., while supporting the review of images/series, fails to teach or suggest that "display speed" is set by "a mechanical slide-bar variable adjuster positioned in a separate case" (claim 1)—only scrolling *per se* is reasonably seen. Also, as in claim 3, while "two series of tomographic images" might appear on Chang et al.'s "display portion", these are not disclosed as being presented by "synchronizing the display speeds for the at least two series". Finally, nothing is fairly taught or suggested in Chang et al. to read upon "display-speed setting" between "two series" that takes into account "a number of images" that "is different" (claim 13).

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
